

Information for Sedation Patient Escort

You must come with the patient you are escorting and remain in the practice the whole time of the appointment. You must not bring any children with you. Patients who attend with children will be re-appointed.

The patient must not do any of the following;

- Drive any vehicle
- Operate machinery
- Use domestic appliances
- Look after children
- Drink alcohol
- Make important decisions or sign documents

Sedation will have effects for around 12 hours.

During that time the patient must not be left alone. They should rest quietly for the rest of the day.

As an escort you should ensure that the patient understands and follows instructions given after treatment. The patient should take any prescribed medication as normal. If the patient is to be left with another responsible adult make sure they are aware of this information.

If you have any questions before or after treatment please call 0141 812 8420
